

October 2, 2018

Good evening, This is Mr. Hynes with an important message,

Today we were made aware that a few students at the high school level contracted a form of staph infection. They are getting checked by their physicians and the students will receive treatment if warranted by their physician.

We are monitoring the reports closely and the district is using the Ohio Department of Health guidelines as a resource. A copy of the guidelines are posted on the District website.

The custodial staff will extensively clean areas in an effort to prevent any further spreading of the bacteria.

All school events will continue as scheduled.

if you have any questions, please. feel free to contact the school nurse.

Thank you and have a great night.
